SOLUTION

Emissions Trading Scheme
(ETS) assessment, application
and registration

Background

- Block Size: 1,230ha in the ETS
- Trust had worked with another provider previously
- Forest360 were known for their work with two other Trusts

Response

- Forest360 were able to secure additional carbon credits for the Trust, which they weren't aware they were entitled to
- Negotiated a 'Save and Buy Back' agreement on carbon credits, which was a real plus for the Trust needing to raise funds
- Advised and assessed their registration of carbon credits, resulting in a higher application

THAT WE WERE VERY GRATEFUL.”**

A close-up photograph of a hand holding a young pine sapling. The hand is positioned at the top right, with a gold ring on the ring finger. The sapling has vibrant green needles and a brown root system. A large, semi-transparent red circle is overlaid on the image, partially obscuring the hand and the sapling. The background is a blurred forest scene with tall trees.
